ABOUT ME

Often referred to as "Neo Nguyen," I am a mobile developer passionate about technology and interested in applying AI to build smarter, more efficient apps. I'm seeking a long-term role to contribute effectively and grow my skills.

TECHNICAL SKILLS

- **Languages:** Dart, Java, C#.
- **Technologies & Frameworks:** Flutter, Android SDK, iOS SDK, Firebase (Authentication, Cloud Firestore, Realtime Database, Cloud Functions), RESTful APIs, GraphQL.
- **Architecture & Design Patterns:** MVVM, MVC, Clean Architecture, Strong knowledge of OOP and common design patterns.
- **State Management:** BLoC/Cubit, Riverpod, GetX, Provider.
- **Storage & Database:** SQLite, Shared Preferences, Secure Storage.
- **Testing & Debugging:** Unit Testing, Widget Testing, Integration Testing, Flutter DevTools, Flutter Inspector.
- **DevOps & Version Control:** Git, GitHub, GitLab, CI/CD Pipelines (GitHub Actions, GitLab CI).
- **Deployment:** Google Play Console, Apple App Store, TestFlight.
- **Development Methodologies:** Agile/Scrum, Waterfall.
- **Tools:** Redmine, Notion.

PROJECTS

HERA HOLDINGS GROUP – CAR TRADING & RENTAL PLATFORM
Team size: 9 — **Role:** Mobile Developer
Technologies: Flutter (Dart), RESTful API
Platforms: iOS | Android | Website
A car trading and rental application serving the Australian market with flexible leasing options.
Key Contributions:
- Developed the home screen, car listing interfaces, profile management, loyalty program, and news module.
- Implemented account functionalities such as password recovery and deletion.
- Integrated RESTful APIs for seamless data communication.

REPEAT ENGLISH – VOCABULARY LEARNING APP
Team size: 7 — **Role:** Mobile Developer
T**echnologies:** Flutter (Dart), Firebase, RESTful API
Platforms: iOS | Android
An educational app designed to help users learn English vocabulary using flashcards and spaced repetition.
Key Contributions:
- Developed main screens including home, user profile, and subscription packages.
- Built a KOL referral tracking system with commission calculations.
- Integrated Firebase for push notifications and data sync.

DQSMART PRO – SMART HOME IOT APP
Role: Mobile Developer (Third-party collaboration)
Technologies: Flutter (Dart), RESTful API
Platforms: iOS | Android
An IoT application that allows users to control smart electrical devices via BLE Mesh technology.
Key Contributions:
- Built BLE Mesh-based interfaces for smart lighting control.
- Integrated automatic firmware update and cloud gateway support.

EDUCATION

HUFLIT - University of Foreign Languages and Information Technology, HCMC   Sep 2020 – Sep 2024
Bachelor of Engineering in Software Engineering

WORK EXPERIENCE

ENGMA JSC — MOBILE DEVELOPER   Mar 2023 – Present
- Develop and maintain mobile applications using Flutter.
- Collaborate with backend developers and UI/UX designers to deliver high-quality products.
- Optimize app performance and ensure compatibility across platforms.
